Mission

With a comprehensive view of all disciplines, **MEEQAT AL-MODON** Group mission is not merely to provide the best and most efficient services and goods in the field of contracting, medical care industries, commercial development and other investments. However, our constant quest is to offer turnkey solutions to our customers in KSA and to devote efforts in serving the public interest with all the expertise, knowledge and know-how we earned over the last years in many disciplines and specializations where we provided various works and services – including but not limited to professional Contracting, maintenance, cleaning works. Operations, Trading and Consulting Services

Therefore, the success we have achieved encouraged us to broaden our scope of activities to cover other domains such as the buildings operation and maintenance, cleaning, and equipment periodic maintenance and operation.

MEEQAT AL-MODON Group looks forward to achieve excellence in customer service, while maintaining high quality and pioneering role in providing advanced services and goods in line with life developments and modern technologies and innovations, taking advantage of local and international expertise in all fields and activities based on our belief in the right of all people to enjoy high-level services. We strive to work together using the most recent technology to provide outstanding services and distinguished healthcare in the Kingdom and abroad; while strongly adhering to our deep-rooted values, noble principles and business ethics that guide us in our mission and define the work methodology in our institution, including but not limited to the following:

- Excellence – through high quality and excellence in services and development of our resources.
- Ethics – Integrity, honesty, honor, privacy and confidentiality.
- Principles – we believe in individuals and respect them.
- Teamwork – we work cooperatively to achieve our goals.
- Accountability – loyalty and commitment.
- Safety – we are committed of maintaining the safety of all employees and customers.
- Responsibility – effective action and financial responsibility.
- Integrity – we believe that excellent position and reputation are essential for the success of our work. Therefore, we strictly abide by the highest work ethics and professional principles and take into account the requirements of honesty and integrity when dealing with our partners.
- Excellence – we understand and meet the needs of our customers. We do our utmost to satisfy them, focusing on quality in our works and services. We will exert more effort to achieve excellence in meeting your requirements and needs.
- Innovation – we always strive to learn and support new useful innovations, taking advantage of local and international expertise; we create leading local solutions based on our high-level expertise and we welcome positive change that will result in innovation and new ambitions to develop our works
- Leadership – we work on the development of talents and create leadership capacities to find effective work solutions designed to best meet the needs of our customers, develop markets for our products, raise the level of our employees

and achieve the benefit of the shareholders, through the optimum use of funds, resources and techniques, which will eventually lead to the development of the leadership concept in our company.

- Community service – we aspire to achieve success in our business and the well-being of our employees and the communities in which we operate. Through our culture, thoughts, environmental concerns, and teamwork, we seek to consolidate our distinctive values when dealing with the community members.

Our group seeks and makes every effort to stay in the forefront and to be always characterized by organized work, wonderful service, high-level professional activity, commitment to and respect of tradition, noble values, ethics, and principles in work and cooperation, as constants marking our group since its inception. In order to achieve its objectives, the Group plans to provide the best services in line with the market requirements and develop a stronger partnership with other institutions in order to adopt a partnership and cooperation methodology including the entire community and offering everyone the opportunity to join forces and cooperate to serve the nation. The future plans of the Group include the following main objectives that it intends to achieve over the next five years:

Provide a full range of services, giving the priority to the local community while continuing to get and maintain international accreditation and expanding the scope of services for the company to become the main provider of different services in the region. Adopt an institutional application to work according to a system in order to completely dispense with the paperwork, develop financial control and attract and maintain qualified staff.
